5. Claims 1-12 and 15-25, are allowed over the prior art of record.
6. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

Regarding Independent Claims 1 and 15, Applicant's particular method and associated system for purging certain files from a delayed close list is a client-side delayed close list of cached open files; storing a unique file identifier for each of the cache files, wherein the unique file identifier is independent of the cached file names; and purging from the delayed close list the cache open files having the same unique file identifier as the target file identifier in combination with the other limitations of the claims, was not disclosed by, would not have been obvious over, nor would have been fairly suggested by the prior art of record or that encountered in searching of the prior art.

Art Unit: 2161

The dependent Claims 2-12 being further limiting to independent Claim 1; and dependent Claims 16-25 being further limiting to independent Claim 15; definite and enabled by the Specification are also allowed.
